PROFILE

Web developer with 15 years of experience specializing in responsive websites, web apps, and custom WordPress solutions. Proven expertise in HTML, CSS, SCSS, JavaScript, jQuery, and front-end responsive frameworks. Proficient in PHP, MySQL, Git, and Linux system administration.

WORK EXPERIENCE

Web Technology Consultant — Marathon Consulting

 2023 - 2025  Virginia Beach, VA  Full-Time / Remote

- Develop and implement high-volume, complex marketing and e-commerce websites.
- Leverage modern web technologies to create dynamic and scalable web solutions tailored to client needs.
- Collaborate closely with cross-functional teams to ensure smooth integration of design and functionality.
- Deliver high-quality web applications that meet both business objectives and end-user expectations.
- Collaborate within an Agile development environment, participating in sprint planning, daily stand-ups, and retrospectives to deliver high-quality, user-focused web solutions efficiently.
- Contributed to the development of a large-scale WordPress multisite platform supporting multiple brands and lead-generation funnels.
- Helped build and maintain custom Gutenberg blocks and reusable WordPress components that enhanced content editing efficiency and visual consistency.
- Optimized site performance and SEO, improving page speed, stability, and user experience through performance best practices and structured data.
- Collaborated on the integration of third-party APIs and marketing tools to support lead tracking and customer engagement.

Full-Stack Web Developer — Square Orange, LLC

 2023 - 2023  Atlantic Beach, NC  Self-Employed / On-Site

- Delivered full-cycle web development services to small business and agency clients using PHP, HTML, CSS/SCSS, and JavaScript.
- Created and maintained custom WordPress themes and plugins tailored to client requirements.
- Managed cloud-based Linux hosting environments, implementing performance monitoring and security updates.
- Applied secure coding standards and Agile methodologies to ensure timely, stable releases.
- Oversaw project workflows and documentation to streamline collaboration with external partners.
- Offered comprehensive technical support, achieving consistent repeat business and referrals.

Lead Front-End Web Developer — Hobie Cat Co.

 2017 - 2023  Oceanside, CA  Full-Time / Hybrid

- Developed front-end template code for both internal and external Django websites, ensuring a cohesive and user-friendly interface.
- Translated Adobe Photoshop designs into responsive, compliant, and visually engaging HTML, CSS, SCSS, and JavaScript for various projects.
- Played a key role in the development and maintenance of the company's WordPress blogs, optimizing content delivery and user engagement.
- Created responsive HTML email templates for integration with internal and external email marketing systems.
- Collaborated closely with marketing and design teams, providing technical expertise for social media and advertising campaigns.

Full-Stack Web Developer — Square Orange, LLC

 2013 - 2017  Temecula, CA  Self-Employed / On-Site

- Developed and maintained responsive websites and web applications using PHP, Python, HTML, CSS/SCSS, and JavaScript.
- Built and managed custom WordPress websites, including theme and plugin development.
- Deployed and maintained cloud-based Linux web servers, optimizing performance and uptime for client sites.
- Wrote secure, maintainable code following modern security and Agile development best practices.
- Led project development lifecycles, maintaining technical documentation and workflows.
- Provided responsive client support via phone, email, and on-site visits, ensuring long-term satisfaction and retention.

Lead Front-End Web Developer — Business.com

 2010 - 2013  Carlsbad, CA  Full-Time / On-Site

- Developed front-end template code for both internal and external ExpressionEngine websites, ensuring a cohesive and user-friendly interface.
- Translated Adobe Photoshop designs into responsive, compliant, and visually engaging HTML, CSS, SCSS, and JavaScript for various projects.
- Contributed to the development and maintenance of the company's WordPress blogs, enhancing content delivery and user interaction.
- Created responsive HTML email templates for integration with internal and external email marketing systems, improving the effectiveness of communication strategies.
- Collaborated closely with marketing and design teams to support social media and advertising campaigns, ensuring a unified and compelling online presence.

Director of Technology — La Touraine Inc.

 2007 - 2010  San Diego, CA  Full-Time / On-Site

- Led a team of web developers and IT technicians.
- Collaborated with the IT project manager to keep projects on schedule and within the vision of company executives.
- Worked with external vendors and oversaw the management of service contracts.
- Managed staffing for the IT department, overseeing recruitment, training, and performance evaluations.

Webmaster / IT Support Technician — Netegriti, LLC

 2005 - 2007  San Diego, CA  Full-Time / On-Site

- Oversaw the company's e-commerce website, managing and enhancing functionalities through HTML, CSS, and JavaScript.
- Supported internal servers and workstations across Windows, Linux, and MacOS platforms.
- Provided external technical support to customers.

Webmaster / IT Support Technician — WHFR Radio

 2002 - 2005  Dearborn, MI  Full-Time / On-Site

- Designed, developed, and maintained the radio station's website (HTML, CSS, and JavaScript).
- Set up and managed the live audio streaming server for the radio station.
- Managed the radio station's dedicated Linux server.
- Provided technical support for all internal Windows and MacOS workstations.

LAN Administrator / IT Support Technician — Ford Motor Co.

 1999 - 2002  Allen Park, MI  Contract / On-Site

- Provided level 2 support for Microsoft Windows servers, workstations, and printing systems, ensuring optimal functionality and resolving technical issues promptly.

IT Support Technician — Blue Cross Blue Shield of Michigan

 1998 - 1999  Detroit, MI  Contract / On-Site

- Provided level 1 support for Microsoft Windows servers, workstations, and printing systems, ensuring optimal functionality and resolving technical issues promptly.
